COLECRAFT
The Art of Detail™

The Art of Detail

Our design mission is to achieve success in both form and function. The Colecraft design teams' goal is to creatively solve the client's functional requirements without compromising form and style.

Attention to detail starts with listening and understanding the total requirements of the project. This includes scale, style functional and budget considerations.

Our broad range of core competency includes the ability to incorporate a wide range of material in to our designs. We select from the finest hard woods and veneers and include stone, glass steel, leather and many other materials appropriate for satisfactory execution of the design.

Levity features strong, cantilevered or floating counters that address ADA compliance while opening the approach for visitors. A scalable inset element in the transaction allows for mixed material or digital imagery integration for a customized brand message.

Optionally, pedestal and storage can support the cantilevered surfaces for added visual punch. Levity's hollow wall construction handles cable management and improves user functionality.

Alternating monolithic elements offer Levity a unique, timeless design sure to appeal in modern reception spaces.

Style	Modern
Case	Light Olive veneer, white solid surface.
Counter	Light Olive veneer, 3form pressed glass, metallic paint accents.
Worksurface	White solid surface.
Structure	Fully framed core with removable interior panels for hidden wire management.
Features	Scalable inset elements, cantilevered surfaces, modular design.
