the **Art** of Detail

LAB TABLES

Colecraft has years of experience that ensures a carefully-planned and well-designed lab facility that will meet and exceed expectations. Our front-end service includes CAD drawings, quotes as well as photo-realistic renderings of key components.

In developing our proposed designs, we listen carefully to your requirements and provide clear communication through a single point of contact. As part of the up-front design process Colecraft will outline options along with the strengths and weaknesses of each. We will always take the time to understand and directly reflect your expectations in creating the final lab design. Our comprehensive design approach assures that your completed lab project will include all the proper functionality and design requirements at the expected budget.

Because we supply all the lab furniture including cabinetry, countertops and tables our laboratory solutions are designed as a complete system from the beginning. This approach provides total coordination throughout the project from design through installation with our optional installation services. This approach ensures 100% satisfaction before we leave the site.

THE ART OF DETAIL AT COLECRAFT PRODUCES THE BEST LAB DESIGNS RESULTING IN TOTAL SATISFACTION BY OUR CLIENTS.
