# Configurable Training

Whatever the training room need, Colecraft provides the table solution. Lecture hall, training room or classroom, Colecraft offers the table to meet your specific training needs. Our education and training table line is broad enough to provide an uncompromised solution for all your specific training requirements. Colecraft offers dozens of table shapes, sizes and surface finishes. We offer many alternative leg designs including tilting and folding. Our technology solutions include a broad range of power and data options that can be daisy chained together to assure all the needs of the current training environment are addressed while also maintaining flexibility of the layout.
